

OUR ENVIRONMENT CONCERN

NATURE NEVER CEASE TO SURPRISE US.....

Simply yet Beautiful.....

As Great Philosopher, Thich Nhat hanh Said, You carry mother Earth within you.
She is not just your environment. In that sight of interbeing, it is possible to have real
communication with the Earth, Which is the highest form of prayer.

EKKADAMSWACHHTAKELIYE

The Swachh Bharat Abhiyan is the most significant cleanliness campaign by the Government of India. Shri Narendra Modi led a cleanliness pledge at India Gate, which about thirty lakh government employees across the country joined. He also flagged off a walkathon at Rajpath and surprised people by joining in not just for a token few steps, but marching with the participants for a long way.

SAFTY IS FIRST EDUCATIONMUST

Safety is a prime key to avoid any adverse condition in DAVPS NTPC DADRI we understand the need of safety and we always try to aware our student to fight with any adverse condition.

I the same line of action our students & teachers participated in special demonstration class “First Aid & prevention” Followed by Live demonstration of firefighting equipment by the staff of CISF.

PROTECT THE ENVIRONMENT

From last several decades we humans have been degrading our mother earth & its resources on the name of development of technology. On the name of increasing our standards of living unknowingly we are on the way of hampering it further Today we've come so far that it is no more a question of better living but it is just about living Nature has an amazing quality of reviving itself against changes made in itself by natural and manmade factors, but there it has a saturation level too and maybe we have already crossed that. We have degraded it beyond repair. We have accounted to enough deforestation to imbalance the required ratio of carbon dioxide; we have impregnated the water resources with hazardous wastes enough that it cannot purify it further on its own. Soil has been degraded until the level it loses its cultivability. Problems are beyond the count and a perfect solution yet to be have gone too far and it is already too late. If we don't start working now, we won't have tomorrow to repent.
